

# FRESH CATCH

Printed imaging on ceramic tiles is suitable for indoor wall applications.

Available sizes: 6"x6" and 12"x12".\*

Printed imaging on glass tiles is suitable for indoor floor and wall applications. Tempered and untempered tiles are available in 6"x6" and 12"x12".\*

Meets ASTM standards for residential and commercial installations.

Imaging can be printed on a single tile or over a plethora of tiles to create a large-scale mural.

Both photos are from the Hannaford supermarket.

Colorco can work with a variety of formats, from digital images, to photographs and even hand-drawn art to help you create a fantastic custom surface with ease.

\* Custom sizes can be cut by request.
